Catania, Italy - Italian Citizen

github.com/Davoud-kalantari

SKILLS & COMPETENCIES

- **Machine Learning & GenAI:** Prompt Engineering, Fine-tuning, LangChain, LlamaIndex, Embedding, PyTorch, Computer Vision.
- **Cloud & MLOps:** Google Cloud Platform (BigQuery, Spark), Microsoft Azure ML, Databricks, REST API
- **Python & Data:** Pandas, NumPy, Matplotlib, ETL, SQL MySQL MariaDB, Tableau, Looker Studio & Power BI

LANGUAGES

Italian – Native
English – Advanced (C1)

CERTIFICATIONS

- **Docker Foundations Professional** (Docker Inc., Mar 2026)
- **BIP Artificial Intelligence** (Dec 2025)
- **Python Data Analysis** LinkedIn Learning (Mar 2026)

DAVOUD KALANTARI

JUNIOR AI & DATA ENGINEER | DATA SCIENTIST

PROFILE

MSc in Data Science at the University of Catania, with industrial experience at STMicroelectronics on RAG/LLM systems, test automation, and data pipelines within a multi-team R&D environment. I have worked on the extraction, classification, and validation of technical requirements from corporate documentation, as well as MariaDB database management, REST APIs, and regression testing frameworks.

Hybrid profile combining data analytics, software engineering, and understanding of business processes. Interested in junior roles in AI Engineering, Machine Learning Engineering, Data Engineering, Data Science, and Data Analysis.

WORK EXPERIENCE

STMicroelectronics

QA & Test Automation Engineer Intern — RAG/LLM & Test Automation

January 2026 – Present

- Designed and developed an end-to-end RAG pipeline integrated with an internal LLM for the extraction, classification, and validation of technical requirements from corporate documentation, using ontologies, Python and PyTorch technologies.
- Designed a regression testing framework: defined the system baseline, developed automated test suites using GitHub Copilot Agent Mode, and integrated them into the team's SVN workflow, with structured documentation including test plan and regression report..

EDUCATION

Master's Degree in Data Science — Department of Mathematics and Computer Science

October 2023 – July 2026

Areas: Statistical Learning, Machine Learning, Big Data Analytics, Cloud Computing, Computer Vision, NLP, Generative AI. GPA: 28.94/30 | Expected final grade 110/110

Bachelor's Degree in Business Administration

October 2019 – December 2023

Thesis: "Digitalization Tools and AI in the Waste Management Sector in Sicily"
